

BREAST SCREENING UNITS WITHIN THE UNITED KINGDOM OFFERING OBSERVATIONAL AND/OR CLINICAL ATTACHMENTS

The Centres listed offer short periods (from one – four weeks) of a training attachment to overseas radiologists and radiographers in the different disciplines of mammography subject to certain criteria, particularly in relation to clinical attachments where contracts to practice may be required. Applicants for a bursary to undertake a training attachment should contact the Centres to ascertain which one will provide the training they require before reserving a place on the course.
