

## Message from Symposium Mammographicum's President

Dear Colleague,

After careful consideration of the current circumstances related to the Covid-19 pandemic, the Trustees of Symposium Mammographicum have regretfully decided not to proceed with a live conference in Harrogate in February 2021.

We remain, however, committed to delivering an up-to-date, interactive, scientific and educational meeting online in February 2021. Our Organising Committee is working hard with Profile - our Conference Organisers - and with our partners in industry to produce a revised programme. Further details, including registration information, will be made available on the Symposium Mammographicum website in the coming weeks.

We will ensure that the online programme provides state-of-the-art presentations and opportunities for interaction and debate, addressing the key current clinical and technical challenges and controversies faced by all involved in breast screening and diagnosis.

In the meantime, we look forward to welcoming you and your colleagues to our online meeting in February.

Yours sincerely,

**Michael Michell**
