

We are putting together our next conference organising committee. The meeting will be held at SEC in Glasgow, 21-23 June 2023.

You can read about our charity here: <https://sympmamm.org.uk/>

The committee meets 4 times a year - lately via video call, but previously (and hopefully soon) face-to-face in London. Expenses will be covered, both for the planning meetings, and for the conference itself.

Our multidisciplinary committee already includes experts from various professions, including vital patient representation, but we would like to encourage even more diversity of background/specialism. Therefore, we are offering a "wildcard" place! If you work within the field of breast screening, diagnosis or treatment, and have skills or experience that you think would enrich our committee – please get in touch.

Send a brief personal statement (200 words or fewer) by 2 June 2021 for the Trustees' consideration to andrew@sympmamm.org.uk

The Trustees will advise of the outcome by 23 June.

Dr Sarah L Tennant

Chair of 2023 Organising Committee
